

Overview of content

Steffan Kirk 201303635

Institut for Fysik og Astronomi, Aarhus Universitet, Danmark

1 Introduction

1.1 AUSAT

1.2 Observations from a satellite

1.3 Spectrograph

2 Theory

2.1 Optical spectrometry

2.2 USB4000 Spectrometer

3 Experimental

3.1 Stability of spectrometer over long period of time

Setup

Datalogging

3.2 Stability of spectrometer with vibrations over long period of time

Setup

Datalogging

3.3 Stability of spectrometer with simulated temperature difference

Setup

Datalogging

4 Results

5 Conclusion
